

In 1980 I set out to build up an Index on Egyptian Philately. This meant spending many hours at The National Philatelic library, then based at the Liberals HQ near what is now the embankment tube station. John Grimmer also, rather nervously, lent me the Editor's run of QC. I also cross referenced other indexes so may not have seen some of the articles. For the LOP and QC I may notes on any reference with in an article to irrespective to its title so that an article on a cover if it had a second issue stamp on would be have a reference under second issue, under postal rates if mentioned etc. This was done before the days of computers, well I did have a ZX81 with 1K of memory, so the index is hand written and my optical recognition software makes no sense of it so I have left it in picture form as published. Of course it only takes the QC up to 1980 but one can then use the QC index found on the web site.

Editor's Note: Mr Edmund Hall is well advanced in indexing the literature of Egyptian Postal History. The first part is likely to be included with the next issue of The QC.

This was at the bottom of the page and I did do the work but never published it, hopefully I can put these up on the web soon! Ed. Hall January 15, 2007.
